

## CONTENTS OF VOLUME 31

Vol. 31 No. 1 September 1995

H. HÄNNINEN / Assessing Ecological Implications of Climatic Change: Can We Rely on Our Simulation Models? Editorial Essay	1-4
I.G. ENTING / Analysing the Conflicting Requirements of the Framework Convention on Climate Change	5-18
STEPHEN C. PECK and THOMAS J. TEISBERG / Optimal CO <sub>2</sub> Control Policy with Stochastic Losses from Temperature Rise	19-34
MICHAEL D. DETTINGER, MICHAEL GHIL and CHRISTIAN L. KEPPENNE / Interannual and Interdecadal Variability in United States Surface-Air Temperatures, 1910-87	35-66
JEFFREY ENGLIN and JOHN M. CALLAWAY / Environmental Impacts of Sequestering Carbon through Forestation	67-78
GERHARD KOSLOWSKI and RÜDIGER GLASER / Reconstruction of the Ice Winter Severity since 1701 in the Western Baltic	79-98
JOSÉ A. MARENGO / Variations and Change in South American Streamflow	99-117
Book Reviews	
Peter H. Gleick (ed.), <i>Water in Crisis: A Guide to the World's Fresh Water Resources</i> (CHARLES W. HOWE)	119-122
John Houghton, <i>Global Warming: The Complete Briefing</i> (A. HECHT)	123-126
Erratum	127-129

Vol. 31 Nos. 2-4 December 1995

### Special Issue

#### LONG-TERM CLIMATE MONITORING BY THE GLOBAL CLIMATE OBSERVING SYSTEM

*Edited by:*

THOMAS R. KARL

THOMAS KARL / Foreword

v

#### Editorials

Climatic Change 31: 649-651, 1995.

THOMAS SPENCE and JOHN TOWNSHEND / The Global Climate Observing System (GCOS). An Editorial	131-134
THOMAS KARL, FRANCIS BRETHERTON, WILLIAM EASTERLING, CHRIS MILLER, and KEVIN TRENBERTH / Long-Term Climate Monitoring by the Global Climate Observing System (GCOS). An Editorial	135-147
CHRISTOPHER MILLER and FRANCIS BRETHERTON / Long-Term Climate Monitoring by the Global Climate Observing System. Report of Breakout Group A - Climate Forcings and Feedbacks. An Editorial	149-162
KEVIN E. TRENBERTH / Long-Term Climate Monitoring by the Global Climate Observing System. Report of Breakout Group B - Climate Responses and Feedbacks. An Editorial	163-180
WILLIAM E. EASTERLING / Long-Term Climate Monitoring by the Global Climate Observing System (GCOS). Report of Breakout Group C - Climate Impacts. An Editorial	181-184

#### General Aspects of Climate Observing

THOMAS R. KARL, VERNON E. DERR, DAVID R. EASTERLING, CHRIS K. FOLLAND, DAVID J. HOFMANN, SYDNEY LEVITUS, NEVILLE NICHOLLS, DAVID E. PARKER, and GREGORY W. WITHEE / Critical Issues for Long-Term Climate Monitoring	185-221
J. D. MAHLMAN / Toward a Scientific Centered Climate Monitoring System	223-230
NEVILLE NICHOLLS / Long-Term Climate Monitoring and Extreme Events	231-246
J. HANSEN, W. ROSSOW, B. CARLSON, A. LACIS, L. TRAVIS, A. DEL GENIO, I. FUNG, B. CAIRNS, M. MISHCHENKO, and M. SATO / Low-Cost Long-Term Monitoring of Global Climate Forcings and Feedbacks	247-271
U. CUBASCH, J. WASZKEWITZ, G. HEGERL, and J. PERLWITZ / Regional Climate Changes as Simulated in Time-Slice Experiments	273-304

#### Specific Aspects of Climate Observing

WILLIAM B. ROSSOW and BRIAN CAIRNS / Monitoring Changes of Clouds	305-347
WILLIAM P. ELLIOTT / On Detecting Long-Term Changes in Atmospheric Moisture	349-367
JOHN E. WALSH / Long-Term Observations for Monitoring of the Cryosphere	369-394
RAMAKRISHNA R. NEMANI and STEVEN W. RUNNING / Satellite Monitoring of Global Land Cover Changes and Their Impact on Climate	395-413
CHESTER F. ROPELEWSKI / Long-Term Observations of Land Surface Characteristics	415-425
KEVIN E. TRENBERTH / Atmospheric Circulation Climate Changes	427-453

JOHN R. CHRISTY / Temperature above the Surface Layer	455-474
NEVILLE R. SMITH, GEORGE T. NEEDLER, and THE OCEAN OBSERVING SYSTEM DEVELOPMENT PANEL / An Ocean Observing System for Climate. The Conceptual Design	475-494
SYDNEY LEVITUS and JOHN ANTONOV / Observational Evidence of Interannual to Decadal-Scale Variability of the Subsurface Temperature-Salinity Structure of the World Ocean	495-514
VIVIEN GORNITZ / Monitoring Sea Level Changes	515-544
P. D. JONES / Land Surface Temperatures – Is the Network Good Enough?	545-558
D. E. PARKER, C. K. FOLLAND, and M. JACKSON / Marine Surface Temperature: Observed Variations and Data Requirements	559-600
PAVEL YA. GROISMAN and DAVID R. LEGATES / Documenting and Detecting Long-Term Precipitation Trends: Where We Are and What Should Be Done	601-622

**Climate Impacts and Climate Monitoring**

W. E. EASTERLING and R. W. KATES / Indexes of Leading Climate Indicators for Impact Assessment	623-648
Volume Contents	649-651
Author Index	652
